

TRACHEAL STENOSIS

Bringing people together

Visit us at

www.tracheal-stenosis.com

**for further Information, Support,
and to meet other Tracheal Stenosis patients.**

Tracheal Stenosis is a narrowing or constricting of the trachea.

This rare condition can have a profound effect on a persons quality of life, and daily living.

You'll find support and other members who have Tracheal Stenosis - either idiopathic, or caused by trauma. There is also support for those with tracheostomies here.

This site is simply here to bring people, in some way affected by tracheal stenosis, together.

If you need any further information, please contact us at info@tracheal-stenosis.com
